

Dräger X-plore® 8000 Powered Air-Purifying Respirator (PAPR)

Challenging workplace conditions demand reliable solutions. The Dräger X-plore® 8000 offers a new level of intuitive handling combined with intelligent electronics that provide the high degree of safety your people need to focus on the task at hand.

ROBUST: DESIGNED FOR DAILY USE IN TOUGH ENVIRONMENTS

Let's face it: for your workplace, only the most rugged design will do. The Dräger X-plore® 8000 features heavy-duty design with rubber protectors and high ingress protection (IP 65) against dust and water jets from any direction. Two battery versions incorporating the latest Li-ion battery technology provide power for at least 4 h or 8 h, respectively. Protected air intake openings ensure that sparks or water coming from the front will not be sucked into the filter.

COMFORTABLE: LET THE USER FOCUS ON THE TASK

The Dräger X-plore 8000 lets your employees do their job and forget about the PAPR they need for proper personal protection. The advanced carrying system ensures optimal distribution of the weight. The system provides a tight and stable connection between the belt and the unit through a special adaptor plate; a comfort pad is also available as an option. The hose connector features a 360° click adaptor. New headpieces are designed for optimal airflow and maximum comfort to avoid unpleasant eye irritation.

SAFE: SELF-EXPLANATORY OPERATION MINIMISES USER ERROR

The unit recognises connected headgear and automatically selects the correct minimum flow rate, avoiding leakages caused by insufficient flow rates. An optical sensor prevents use without the filter and supports the right display of the saturation of the particle filter at any time. The filter system features plug-and-go exchange. In addition to the optical and acoustical alarm, the unit is also equipped with a vibration alarm. The entire system features uniform colour codes on all exchangeable elements and an error-proof hose connector.

EASY TO MAINTAIN: EFFICIENT CLEANING TOGETHER WITH SECURE OPERATION

The Dräger X-plore 8000 was designed to be practically maintenance free, leading to low cost of ownership. The self-check and self-adjustment systems feature advanced temperature and pressure sensor technology to ensure the right flow rate for any environment. The simple and efficient charging system allows rapid charging (under 4h for an empty battery). The unit is designed for fast and easy disassembly for cleaning. The belt and the comfort pad can be easily removed and are both machine-washable.

Dräger X-plore® 8000
Powered Air-Purifying Respirator

As tough as your work. As safe as possible.

Intelligent alarm system
two-step alarm concept with
differentiation of risk level

Lithium-ion technology
operating time between 4 and
20 hours depending on the working
conditions and system set-up

IP 65 protection
IP 65 for optimal protection
and easy decontamination

Filter recognition
advanced sensor technology recognises
the correct filter and displays particle
filter saturation properly

Hose identification
automatic adjustment of minimum
flow rate for attached headpiece

Dräger X-plore® 8000 Premium hood, short

Dräger X-plore® 8000 Helmet with visor

Dräger FPS 7000 Full-face mask

TECHNICAL DATA

Powered Air-Purifying Respirator for protection against a wide range of gases, dust and particles

Approvals	EN 12941 with Dräger X-plore® 8000 Hoods, Helmets and Visors EN 12942 with Dräger X-plore® 4740/6000 half and full-face masks incl. Dräger FPS 7000 full-face mask
Ingress protection	IP65 (dust-tight and resistant to water jets from all sides)
Airflow	Adjustable in three levels (automatic setting of operating type: loose- or tight-fitting headpiece) Half and full-face mask: 115, 130 or 145 l/min Hoods, Helmets and Visors: 170, 190 or 210 l/min
Battery technology	Lithium-ions: 12.6 V/3.4 Ah (standard battery), 12.6 V/6.8 Ah (high-capacity battery)
Operating time**	Standard battery life: 4 hours (at 210 l/min and P3 filter) High-capacity battery: 8 hours (at 210 l/min and P3 filter)
Charging time	Under 4 hours (in two hours 80 % can be reached)
Weight	Approx. 1,340 g (Dräger X-plore® 8500 incl. standard battery and splash guard lid)
Alarm system	Optical alarm (operating display) Acoustical alarm (≥ 80 dB(A) at 1 m) Vibration alarm
Belt length	Adjustable between 750 mm and 1,400 mm (standard and decontamination version)
Belt extension	350 mm (standard and decontamination version)

** Depending on the adjusted flow and the concentration of contaminants

MODULAR: A WIDE RANGE OF COMPONENTS FOR EVERY APPLICATION

The Dräger X-plore 8000 offers a number of user-friendly standard and specialised carrying systems for standard and decon-

tamination applications. Dräger has also developed a wide range of tight- and loose-fitting headgear such as half and full-face masks, short and long hoods and helmets with visor and protective visor. Standard

and enhanced flexibility hoses are available and compatibility is ensured. Components and accessories can be combined to best fit your application, and system upgrades are possible at any time.
